

# Expedite disengagement in Ladakh: India to China

Two sides continue to remain in touch on the issue, says MEA spokesperson

PRESS TRUST OF INDIA  
New Delhi, 2 April

India on Friday hoped that China will work with it to ensure disengagement of troops in remaining areas of eastern Ladakh at the earliest, and asserted that de-escalation of tension alone will lead to restoration of peace and tranquillity in border areas and provide conditions for progress of bilateral ties.

Following the disengagement in the Pangong lake area, India and China held the 10th round of military talks in February

At a media briefing, Spokesperson in the Ministry of External Affairs Arindam Bagchi said the two sides continue to remain in touch through military and diplomatic channels on the issue.

He also referred to External Affairs Minister S Jaishankar's comments that a prolongation of the situation is in neither side's interest.

"We, therefore, hope that the Chinese side will work with us to ensure that disengagement in the remaining areas is completed at the earliest," he added.

This, he said, would allow both sides to consider de-escalation of forces in eastern Ladakh as that alone will lead to the restoration of peace and

tranquility and provide conditions for progress of the bilateral relationship.

Bagchi also said that there was a consensus that the two sides should now quickly resolve the remaining issues in the region.

"The disengagement in Pangong Lake area was a significant step forward and it has provided a good basis for resolution of other remaining issues along the Line of Actual Control in western sector," he said.

Bagchi said the two sides

had detailed exchange of views on the remaining issues both at the senior commanders' meeting and the discussions held under the framework of Working Mechanism for Consultation and Coordination (WMCC) on border affairs.

Following the disengagement in the Pangong lake area, India and China held the 10th round of military talks, the WMCC meeting besides a telephonic conversation between the foreign ministers of the two countries.

The border standoff between the Indian and Chinese militaries erupted on May 5 last year following a violent clash in the Pangong lake areas and both sides gradually enhanced their deployment by rushing in tens of thousands of soldiers as well as heavy weaponry.

As a result of a series of military and diplomatic talks, the two sides completed withdrawal of troops and weapons from the North and South banks of Pangong lake in February in line with an agreement on disengagement.

In the subsequent military talks on February 20, India insisted on resolution of outstanding issues including in Depsang, Hot Springs and Gogra.

India has been insisting that peace and tranquility along the border is essential for overall ties between the two countries.

Last week, Army Chief Gen MM Naravane said that the threat to India has only "abated" following the disengagement in Pangong lake areas but it has not gone away altogether.

## In poll-bound Kerala, PM mentions 'seven deadly sins' of LDF and UDF

PRESS TRUST OF INDIA  
Konnir (Kerala), 2 April

With Good Friday being observed in poll-bound Kerala, Prime Minister Narendra Modi used a Biblical reference for targeting the ruling CPI(M)-led LDF and Congress-headed UDF, saying the two fronts have committed the 'seven deadly sins' including greed and lust for power.

"You all have heard of the seven deadly sins. UDF and LDF have committed their own seven deadly sins in Kerala," Modi said at an elec-

tion rally here on Friday, attacking the two fronts which have been ruling Kerala alternatively over the years.

"The first sin is pride and arrogance. UDF and LDF feel that they can never be defeated. This has made their leaders very arrogant and disconnected from their roots, while the second sin is their greed for money," he said, referring to the gold, dollar and solar cases, which has tainted the two fronts.

The gold smuggling case is about the seizure of 30 kg of gold worth ₹14.82 crore from a

diplomatic baggage at the Thiruvananthapuram airport in July last year and the dollar case pertains to alleged smuggling of \$1,90,000 (equivalent to ₹1.3 crore by a former finance head of UAE consulate).

The Solar panel scandal, which hit the previous UDF government of Oommen Chandy, relates to a couple cheating people of crores of rupees by promising to install solar panels and offering franchise and jobs. Modi claimed the two fronts were envious, jealous and want to outdo each other in committing wrongs.

## EC orders repoll in Assam booth after EVM row

The Election Commission on Friday ordered a repoll at a polling booth in Ratabari seat of Assam after a controversy broke out over the presiding officer carrying the EVM after polling in a vehicle which belonged to the wife of a BJP candidate contesting from a neighbouring seat.

To prevent the polling team from being assaulted in Karimganj by a mob which alleged that the electronic voting machine was being taken for tampering, police had to use force. PTI

## Govt says no export ban...

"I don't have an exact number for what is the demand (for the vaccines) because it is a request based on the requirement of countries," Bagchi said.

The 'Vaccine Maitree' initiative has been extremely successful and very well liked by our partners across the world and "we are continuing to try to supply to the extent possible given our domestic requirements", Bagchi said.

Asked about reports that Nepal has approached India to procure 5 million more vaccine doses but has not got any response, he said India has taken the lead on sending vaccines abroad.

"No country has shared with the world the number of vaccines that India has while vaccinating its own population. Till now, we have supplied vaccines to more than 80 countries across in the world and we have already stated that our external supplies would be done keeping in mind our domestic requirements," the MEA spokesperson said.

"At this time, I hope our partners understand that vaccines are primarily purposed for domestic consumption. I want to emphasise that we have not imposed any export ban on vaccines," Bagchi asserted.

Regarding the concerns of other countries, India's position has been suitably conveyed through its official channels, he added. India is one of the world's biggest drugmakers, and an increasing number of countries have already approached it for procuring anti-coronavirus vaccines.

## Equity MF flows turn positive...

Equity flows turning positive could give fund managers firepower to invest in the markets. This could come in handy as flows from foreign investors have tapered off amid rising bond yields in the US.

Apart from the large-cap category, several other top equity categories have seen their assets edge higher. For instance, the small-cap category has seen its AUM increase from ₹66,665 crore at the end of February to ₹67,541 crore, data available on industry body Amfi's website shows. The large and mid-cap segment saw its AUM increase by 1.6 per cent to ₹75,246 crore in March. The BSE SmallCap 250 index rose 0.7 per cent in March.

Speaking about the change in March, DP Singh, chief business officer at SBI MF, said: "We are seeing a change in the trend in March and people who were sitting on the sidelines have entered after correction in markets. I think in March we might see positive numbers in equity flows as well as for systematic investment plans (SIPs)."

The correction gave investors an entry, but the spike in volatility could discourage some investors, say industry players.

"The markets have cooled off a bit. However, the volatility has gone up. We are seeing the markets exhibit wild swings and move in a range-bound manner. This may not be a very encouraging sign. The rise in US bond yields and resurgence in Covid cases are major headwinds for the market," said a top official with a mid-sized fund house.

He, however, said the rolling one-year returns for many schemes have been phenomenal and investors who invest based on past returns could get enthused to invest.

In the last one year, categories such as large-and-mid-cap schemes, mid-cap schemes and small-cap schemes have seen average returns of 73-105 per cent in the last one year.

## Personal tax mop-up...

The Central Board of Direct Taxes (CBDT) had issued refunds of over ₹2.62 trillion to more than 23.8 million taxpayers in FY21, against ₹1.83 trillion in FY20. Income tax refunds of approximately ₹87,749 crore were issued in 23.4 million cases during the last financial year, whereas corporate tax refunds of approximately ₹1.74 trillion were issued in 346,000 cases.

"It has been the endeavour of the government to come out with various measures to ease the economic fallout of the pandemic and in line with the same, the CBDT has issued pending refunds expeditiously," the government said in a statement.

In the Budget, presented in February, the direct tax collection target for FY21 saw a significant fall from ₹13.19 trillion estimated earlier, in view of the economic impact of the pandemic.

Revenue Secretary Tarun Bajaj in an interview with *Business Standard* had said that the robust revenue mop-up would lead to slightly less fiscal deficit than 9.5 per cent of GDP as estimated in the Budget.

About 45 per cent direct tax revenue collection comes from advance tax, 35 per cent from tax deducted at source, and the remaining 20 per cent from self-assessment and recovery.

Payment on account of the Vivad se Vishwas — the government's flagship tax dispute resolution scheme — will further add to the direct tax mop-up.

As much as ₹54,346 crore had been earned while resolving tax disputes worth ₹98,328 crore with taxpayers until March 1 under the scheme, which ended on March 31.

## Lockdown not ruled out: Maharashtra CM

These curbs came as the Centre expressed grave concern over rising Covid-19 cases in 11 states and Union Territories. Tier II and III cities are recording fast growth in active cases, and the growth rate of 6.8 per cent in March surpassed the previous record of 5.5 per cent in June 2020.

Maharashtra remains the worst affected state and accounts for over 60 per cent of the total cases in the country. Eight of the 10-worst affected districts are in Maharashtra and Pune tops the list with over 64,000 active cases.

On Thursday, representatives from the Retailers Association of India (RAI), NRAI, Shopping Centres Association of India and the Multiplex Association of India came together to petition the Maharashtra government to bring down the out-of-home restrictions in Mumbai. This was done in anticipation of a limited lockdown in the financial capital as Covid-19 cases increased steadily.

Retailers, mall developers, multiple operators, and restaurant owners argue that limited lockdowns, night curfews, and random rapid antigen testing have hurt their operations over the past month, even as standalone shops, marketplaces, stations and bus-stops continue to remain crowded.

Kumar Rajagopalan of RAI said: "Formal retail spaces have the ability to adhere to hygiene standards and can ensure social distancing, as compared to local markets. However, as soon as the pandemic surges, a new wave of restrictions are applied to formal retail spaces.

These restrictions are creating setbacks for retailers and dampening consumer sentiment."
