

# ASUS ROG G20CB Blood, sweat and tears in 4K

It is powered by 32GB RAM, NVIDIA GTX980 graphics card & an intel i7-6700 processor

ABHIK SEN

Have your dreams ever come true? One of mine did recently. It was all a question of timing really, but the ASUS Republic of Gamers (ROG) G20CB (₹1,22,990) came in for review just as I was nearly done with the review of the Samsung's latest line of 4K TVs. Gaming on a 55-inch screen in 4K? Who doesn't want to do that!

The G20CB was compact enough to find space on my wall unit. The matte grey and fiery red cabinet looked bright, though a tad flashy for my liking. What intrigued me was the angular pattern all over the console-sized cabinet. Due to the crazy angles, the unit can't be placed on its side; in fact, it can only be placed vertically, with the base being broader than the top. The G20CB bundles a combined double brick as the power supply — two leads need to be connected to the PC while two 5A three-pin plugs need to be connected to the power sockets, which could be a problem if you have a lot of peripherals.

I hooked it up to the TV (via HDMI), connected the bundled keyboard and mouse and set it up, discovering the tiny lights all over in the process. It was overwhelming to work on such big a screen (and in 4K) while setting up Windows 10 but I got the job done. Next, I logged into my gaming accounts. And I was set to play the games at the highest settings. First stop was an old favourite, *Dirt: Showdown*. I always sucked at showboating, but all the pyrotechnics never looked better. Another thing I noticed was while ASUS bundles in nifty software to map the lights and optimise the rig for

At ₹1,22,990, the ASUS ROG G20CB is for those who want a PC the size of a console with insane gaming power, but don't want to get their hands dirty building a rig.

gaming, not all of it is useful. While the lights can be modified in millions of ways, not all combinations look good with the red colour of the chassis. And while some background processes can be shut down while gaming, optimisations such as for the LAN card are something of a hit-and-miss.

Then it was time for *NFS: Most Wanted*. As I raced all over town from dawn till dusk, the sun's rays caressed my red Bugatti, letting off a sheen I'd never seen in the virtual world. Next up was *Tomb Raider*, where everything from Lara Croft's expressions to the ripples of a wave were in vivid detail. This led me to invest in *Rise of the Tomb Raider*, a game I hadn't bought till then because my three-year-old gaming rig wouldn't be able to handle it at high settings.

Well, I was floored. It looked as if I was watching a live-action movie; and the atmospheric somehow enhanced the experience — I can still visualise

the dance of the shadows on the walls of a cave, something I had never noticed while playing on my usual rig.

Since the G20CB's optical drive could play Blu-Rays, I picked my copy of *Frozen* — it was flawless, but for the notifications cropping up. I was ready for more, so I popped in my copy of *FIFA 16* for a Gareth Bale vs Lionel Messi. Since I was rusty, and am a Real Madrid fan, I was certain FC Barcelona would lose if I played as that team. And I was right; the frustration on Messi's face was as real as when he failed to win this year's Copa America. A caveat: The bundled keyboard and mouse are okay for everyday use but a disappointment for any gamer; I reverted to using my ancient Logitech gear — the G15 keyboard and the legendary MX518 gaming mouse.

Next, I tried playing *Mortal Kombat X* but the gory visuals were a bit too much in 4K detail. I'm no lily-livered bloke, but if you seriously like watching guts hanging out in vivid detail, you need to visit a shrink. On a positive note, this rig, powered by 32GB of RAM, a 4GB NVIDIA GTX980 graphics card and an intel i7-6700 processor is good enough to drive contemporary VR headsets such as the HTC Vive or the Oculus Rift, though I didn't have these around to check them out. Also, the operating system runs fast on the 256GB SSD, while a 3TB hard drive should be good for those gargantuan games. But since it's a compact system and the processor isn't unlocked, this isn't for any tinkerer.

The ASUS ROG G20CB is for those who want a PC with insane gaming power and the size of a console, but don't want to get their hands dirty building a rig.

# Honor 5C: Light on your pocket

At ₹10,999, the Honor 5C is a great bargain for its price

KAKOLI CHAKRABORTY

Successor to the Honor 4C, the 5C is the latest budget smartphone from Huawei to garner attention.

The phone has a 5.2-inch full HD display and it looks a lot like the Honor 5X, except for the fact that the 5C comes with a metal unibody design. The display is decent enough and the colours are vivid and sharp. But using the phone in sunlight can be a hassle.

Though the phone looks premium, the back is highly prone to scratches. I'd recommend buying a protective cover as soon as you buy the phone. Unlike the 5X, the 5C doesn't come with a fingerprint reader.

Under the hood, the 5C houses a Kirin 650 processor with 2GB of RAM. Now, the performance isn't the best in the market. If you're looking for a high-powered smartphone, this phone is not the one for you. Nevertheless, I decided to test it out. During everyday use, this phone doesn't prevent you with any

Though the phone looks premium, the back is highly prone to scratches

lags or bugs. But, I took it up a notch and played *Just Dance* and could feel the phone buckle under the pressure. If you're a casual gamer, looking to play light games such as *Candy Crush* or *Temple Run*, the 5C runs smoothly.

The device runs on Android 6.0 Marshmallow along with Huawei's EMUI 4.1. The EMUI is easy to use and doesn't give you a reason to complain, but stock Android lovers would still find it irksome. Just like the 5X, the notification bar is divided into two — for shortcuts and notifications. It does come with pre-installed apps though, but the good news is that these can be uninstalled.

The 5C has a 3,000mAh non-removable battery, which, on moderate usage, lasts more than a day. However, if you are a heavy user, expect having to charge the phone every night.

The disappointing part about the 5C is its camera. It comes with a 13-megapixel (MP) primary and an 8MP secondary camera. In good lighting, the resultant pictures are pretty good but low-light pictures contain a lot of noise. The front camera delivers decent selfies but don't expect the pictures to be of the same level as on flagship phones.

At ₹10,999, the Honor 5C is a great bargain for its price. Yes, high-performance seeking individuals would prefer a better phone. But, if you're looking for a phone that doesn't pinch your pocket much and is a decent performer, look no further.

# Hoops, they did it again!

AABHAS SHARMA

For years gamers have cribbed — at least I have — about lack of a proper basketball game. You either get shooting hoops or really poor games that get annoying before you can say NBA. Not any more. EA Sports has answered our prayers in the form of *NBA Live Mobile*.

*NBA Live Mobile* is the fun basketball game that will enthrall first-time gamers as well as old timers.

Available on Apple's App Store and the Google Play Store, the game can be downloaded for free though you can make in-app purchases. There are four modes — live events, head-to-head, full season and leagues. *NBA Live Mobile* works on EA's *Ultimate Team* format —

NBA LIVE MOBILE

you have to build a team and you're given a basic starter pack of players. The gameplay in season mode is simple — you play matches, earn coins and then buy more players that suit your team's requirement.

For a mobile game, the graphics of *NBA Live* are sharp and while they don't give you a real life-like feel as on con-

soles but it's still a very good game-play experience. The key to playing sports games on mobiles lies in the ease of controls and *NBA Live* scores highly on that. The controls are easy to use, extremely handy and not at all complicated.

There are certain times when you will get frustrated — especially while changing line-ups — but these are small flaws in otherwise what is a very good game to play. One huge drawback is that you always need to be connected to the internet if you have to play the game. But those familiar with EA Sports' mobile games are perhaps accustomed to that.

*NBA Live Mobile* plugs an important gap for fans of sport-based games. It's easy to play, scores high on most criteria, and most importantly, it is great fun. What else do you need in a mobile game?

**Bosch Limited**  
CIN: L85110KA1951PLC000761  
Registered Office: P.B. No. 3000, Hosur Road, Adugodi, Bengaluru - 560 030.  
Tel: +91 80 4176 8626, 2299 2315  
Website: [www.boschindia.com](http://www.boschindia.com); e-mail: [investor@in.bosch.com](mailto:investor@in.bosch.com)

Notice is hereby given pursuant to the provisions of Section 110 of the Companies Act, 2013, read with Rule 22 of the Companies (Management and Administration) Rules, 2014, as amended, that approval of the members of Bosch Limited ("the Company") is being sought through a Postal Ballot (which includes voting by electronic means) for the following business to be passed by way of a Special Resolution:-

a. Special Resolution under section 68 of the Companies Act, 2013 for buyback up to 878,160 shares of Rs. 10 each of the Company.

All members are hereby informed that:

1. Date of completion of dispatch of notice of Postal Ballot along with Statement setting out material facts (both physically and electronically): **July 23, 2016**;
2. Day, Date and Time of commencement of voting: **Monday, July 25, 2016 at 9.00 a.m.** (IST);
3. Day, Date and Time of end of voting: **Tuesday, August 23, 2016 at 5.00 p.m.** (IST). The e-voting platform would be disabled by NSDL thereafter. Any Postal Ballot form received beyond the said date and time will not be valid and voting whether by postal ballot or by electronic means shall not be allowed beyond the said date;
4. The cut-off date for determining right of voting of members: **Monday, July 18, 2016**. Any person who is not a member as on the aforementioned cut-off date shall treat the Postal Ballot Notice dated July 15, 2016, for information purposes only;
5. Members may opt for only one mode of voting i.e. either by physical Postal Ballot or e-voting. In case a member has voted through e-voting as well as Postal Ballot Form, the vote cast through e-voting would be considered and the vote cast through physical Postal Ballot shall be treated as invalid.
6. Members who have not received the Postal Ballot Form may apply to the Company or its Registrar and Transfer Agent and obtain a duplicate thereof.
7. The Board of Directors of the Company has appointed Mr. Pramod S M of HBP & Co. As Scrutinizer for conducting the Postal Ballot in a fair and transparent manner.
8. The Postal Ballot Notice and Form have been hosted on the website of the Company viz., [www.boschindia.com](http://www.boschindia.com) under 'Shareholder Information' Section and on the website of the NSDL at <https://evoting.nSDL.com/>
9. Upon completion of the scrutiny of the postal ballot received in electronic and physical mode, the Scrutinizer will submit his report to the Chairman or Managing Director or Joint Managing Director of the Company. The results of the Postal Ballot along with the Scrutinizer's Report will be announced on Wednesday, August 24, 2016 on or before 6.00 p.m. (IST) through the website of the Company viz., [www.boschindia.com](http://www.boschindia.com) and will also be communicated to the stock exchanges.
10. In case of any grievance or query connected with voting by Postal Ballot including voting by electronic means, members may contact the below mentioned officer of the Company/its Registrar and Transfer Agent:-
